

**ELIGIBILITY SUMMARY ADDENDUM
FOR IDENTIFICATION OF ORTHOPEDIC IMPAIRMENT**

Name _____ Date _____

DEFINITION

Orthopedic impairment means a severe orthopedic impairment that adversely affects a child's educational performance. The term includes impairments caused by congenital anomaly (e.g., club foot, absence of some member), impairments caused by disease (e.g., poliomyelitis, bone tuberculosis), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns that cause contractures).

CRITERIA

A student with an orthopedic impairment who requires special education will meet ALL of the following criteria. For each criterion indicate "Yes" or "No" and provide additional information as appropriate.

- I. The student has an orthopedic impairment.** Yes No

The committee must describe this.

- II. As a result of this orthopedic impairment, the student exhibits physical limitations in the school environment (e.g., mobility, sitting, object manipulation, posture, toileting, communicating, eating, etc.).** Yes No

The committee must describe this.

- III. The significant physical limitations result in an adverse effect on educational performance in one or more instructional areas.** Yes No

The committee must provide data and describe the adverse effects on educational performance.

- IV. The student requires specialized instruction and accommodations to address the identified disability that cannot reasonably be provided solely through regular education.** Yes No

The committee must specify the instruction required and why it cannot be provided by regular education.

- V. Result**
This student meets the "first prong" of the eligibility determination for special education services. The student has a disability that meets the criteria as defined by Albemarle County Schools. Yes No
